

KIOS Research and Innovation Center of Excellence

*An inspiring environment for conducting high quality interdisciplinary research
for the benefit of society and the promotion of knowledge-based economy*

KIOS Undergraduate Research Opportunities Program 2026

The KIOS Research and Innovation Center of Excellence at the University of Cyprus announces **5 research positions (Undergraduate Research Opportunities Program)** for the summer 2026 session for **active undergraduate university students**.

KIOS provides an inspiring environment for carrying out high-level research in the area of Information and Communication Technologies with emphasis on the Monitoring, Control and Security of Critical Infrastructures, including power and energy systems, water networks, transportation networks, telecommunication networks, healthcare systems, and systems for emergency management and response. The Center instigates interdisciplinary interaction and promotes collaboration between industry, academia, and research organizations in high-tech areas of global importance.

Students selected will work with the academics and KIOS researchers in research and innovation programs of the Center. The positions are open to students from all sectors who believe they can work and contribute to technological research projects.

The internship students can work in one of the following application areas of the Center:

- 1 Intelligent transportation systems
- 2 Smart water networks
- 3 Next generation telecommunication systems and networks
- 4 Power systems, smart grids, and integration of renewable energy sources
- 5 Robotics, embedded and IoT hardware and software systems
- 6 Disaster management and health care/biomedical systems

The working hours and the period of employment are flexible. It is expected that students will work 35 hours per week. The duration of employment will be agreed with the selected students and may vary from 4 to 8 weeks (between June 2 and July 24, 2026) and will include a mandatory presentation between July 20 and 24, 2026. The weekly salary will be €270.

Interested students are invited to submit the following material online through the link: <https://applications.ucy.ac.cy/recruitment/main> by **March 27, 2026**:

- Curriculum vitae (up to 2 pages)
- Copy of analytical university grades

Applications with incomplete information will not be evaluated.
